

the loop

The Loop Community Charter

SUPPORT

We will strive to create a welcoming environment for everyone that we serve. Our goal is to provide the latest information and resources to better support you. We aim to build a community where people like yourself can connect, collaborate, and learn together.

MEANING

We commit to creating opportunities that are purposeful and meaningful to you. By aiming to make this a shared partnership where your insights and time are worthwhile, we commit to helping you grow and develop into whomever you strive to become.

EQUITY

We commit to creating an inviting a space where diverse voices and experiences can be shared to better understand and learn how we can tackle societal and individual barriers, offer help, and make opportunities so that everyone, especially those facing disadvantages, can meaningfully contribute to the lung health community.

SAFETY

We commit to creating a space and platform where you feel comfortable, can express yourself, and can be vulnerable. A place where you feel secure and not at risk, and where we recognize that your experience is your own and that is worth sharing.

TRANSPARENCY

We will be open and honest about our goals and expectations, and what engaging with us means. We will provide you with all the information you need, including what we are not able to provide or do, to make sure your decision is well-informed.

FLEXIBILITY

We commit to being open-minded towards new ways of thinking and doing. We will aim to include the insights from people with lived experience and be challenged to change to meet the needs or issues that become visible.
